KY

Dear Dr. Kuznetsov,

It was a pleasure to have the opportunity to talk to you about our research here at C5.
A collaboration option may be a possibility for the future, but at the moment, as I explained, this needs internal discussion.

Our IP team and legal team are drafting the lines and Codes of Conduct. We expect this to take some time to be fully shaped and approved, and the research field will be informed in due time. I certainly hope until then we can keep sharing the high level insights with you.

Kind regards
Dr. Katie Young
Senior Clinical Consultant
C5 Biotech

Dear Miss Yeung

We hope our emails and your contact with Dr Igor will succeed to find an agreement.
We have been disappointed in your reaction so far to share your research. I hope your family stays well in Hong kong. I hear it can be dangerous place.\
